PROFESSIONAL SUMMARY:

I am a third year student passionate about technology and innovation. My academic journey has equipped me with a foundation in programming, algorithm and computer systems. I am particularly interested in software development. I actively seeking for opportunities to apply my skills in real-world projects, internships, and collaborative initiatives. My goal is to contribute to impactful technological solutions and continuously learn from industry experiences. I am eager to connect with professionals and peers who share my enthusiasm for technology and innovation.
